

## RECRUITMENT DETAILS 2021-22

### **About CourseLeap**

Courseleap is looking to hire highly skilled Math subject experts as Instructors/ Assistant Instructors for our various math courses offered to Grade 8 to 12 students under our CourseLeap Math [\(CLM\)](#) vertical. CLM offers courses that emphasize mastering content, skill development and advanced mathematical strategies.

Our team is strongly international in perspective and creative in their educational approaches to the individual needs of the students, yet also committed to inspiring them to the highest academic standards. This level of expertise has led to an unprecedented demand for our services within India and abroad.

We are planning to launch more Advanced Math and Tech courses to benefit students in bridging the gap and accelerating performance towards the top international university education and career in STEM. Thus, we are looking to expand our team with highly skilled people in their core specialization subject area of Math who can motivate students with their passion for learning.
