

Instructions to the shortlisted Candidates for Navig8

The shortlisted t 129 candidates (whose resume are with us) will now be receiving emails for further processing. The shortlisted candidates will be receiving emails from the address WestandMERecruitment@navig8group.com

The students should regularly check their junk folders, in case the email is erroneously sorted as junk. They can also add this email address to their 'Safe List' to prevent losing the emails.

There are two surveys and you will need to complete both of them in order to progress to the interview stage. I would suggest that you complete these tests with a reliable internet connection and where you will not be interrupted.

The tests are as follows:

1. A cognitive ability test called the Professional Learning Indicator (PLI). This test takes 12 minutes to complete and covers verbal, numerical and diagrammatic reasoning. You will receive an email directly from the system provider inviting you to complete this test (the subject will be Invitation to PLI). Please check your junk folders as sometimes these get redirected in to the junk folder.
2. A personality profiling tool called Predictive Index (PI). This takes around 5 minutes to complete and should be completed in your native language. Again, you will receive a link to this directly from the system and if you haven't received it, please check your junk folders. The subject will be PI Survey Login Information.

Please complete all the tests within 7 calendar days of this email at the latest or we will not take your application forward.

Kind regards

HR Team - The Navig8 Group
